Funding Needs

A Company Unlike Any Other Preparing You For Life's Race

Our Mission and Purpose

To create a membership association that promotes a giving, sharing, and helping attitude rather than one of monetary gain based on individual greed, wealth, or fame. This association promotes a website that lifts the Cross to the world, has a Bible download, and emphasizes that priorities in life should be Spiritual, Physical, then Financial in that order to enjoy God's blessings to the fullest.

The founders and leaders are individuals with strong Christian character and intend to build an organization of like character that will ultimately build a million member organization that lifts the Cross and offers a Bible anywhere in the world through PFC International's beautiful website:

www.pfcinternational.com

Christian Stewardship is stressed in all aspects of the Company's outreach and development. It carries a balance in promoting spiritual, physical, and financial fitness.

There is a harmony that in its purpose and mission that makes PFC International unlike any other Company in the world, in other words, a "One of a Kind."

PFC International plans to roll out centers or focal points in each major city to develop leadership which will aid in the funding of other ministries and non profit organizations. With its primary focus on creating the funds for churches and worthwhile non profit organizations, it will be seeking a hub center to conduct and expand its service in each community. The hub center will be the focal point for developing not only their funding program but using the innovative strategies to develop income for other charities and receive an override on this activity.

PFC Helping To Fund Minis- tries and Non Profit Organiza- tions

PFC International offers a very unique funding vehicle for a non profit organization. It utilizes a Charitable Trust to channel multiple streams of income into the non profit organization, which can provide income for its ministries and outreach programs. This program is designed to fund immediate needs for capital improvements and long term needs for recurring budget and operational needs. It also offers the membership of these organizations an opportunity to participate and receive referral rewards to help family income needs while helping their cause.

PFC International has committed 10% of its revenue to a non profit corporation, "PFC Helping Hands Association", to help individuals and families that due to health prob-

lems, tragedies, or natural disasters may need financial relief. The spiritual message that the Company tries to send out is from the Biblically based principle, "It is more blessed to give than to receive."

Strategies to Channel Funding Into Non Profit Organization

Not only does PFC International offer services to create an immediate Charitable Trust for a 501c3 non profit organization, but it also offers a portfolio of innovative services and products that can be beneficial to its membership and supporters. Each has its specific function and can be presented separately or in a combination package depending on the needs of the organization. After a survey of needs with the leadership of the non profit, "Funds For Needs" can develop a specific program or strategy that is best fitted for that organization. There is no "One Program Meets All", but there is a synergism in the programs, by utilizing the proper combination, have the power to generate serious revenue to the non profit and also being a substantial benefit to the participating members.
